# Wyse 5040 All-in-One thin client

ULTRA-SECURE. POWERFUL. ELEGANT.

The Wyse 5040 all-in-one thin client offers exceptional security and delivers an excellent virtual desktop experience, with extreme ease of use and management, integrating a powerful dual core thin client and a stylish 21.5" display.

## ULTIMATE PIECE OF MIND

The Wyse 5040 all-in-one (AIO) operates on Dell's exclusive Wyse ThinOS, a highly secure malware-resistant firmware solution that delivers a zero client experience with the latest high performance desktop virtualization protocols for Citrix, Microsoft® and VMware virtual desktop environments. Wyse ThinOS with PCoIP option enables direct high-performance access to VMware and Amazon WorkSpaces virtual desktops and applications.

## FLEXIBLE AND EFFICIENT

This sleek, thin all-in-one won't clutter users' desks, and the elegant design perfectly complements any customer-facing or business space. The simple one-cord design and out-of-box automatic setup makes deployment effortless.

With versatile connectivity options, users can link to their peripherals and quickly connect to the network while working with graphics-rich applications.

Built-in support for Unified Communications, integrated speakers, a camera and a microphone make video conferencing and desktop communication simple and easy. It even supports a second attached display for those who need a dual monitor configuration.

## SECURE AND EASY TO MANAGE

Enjoy peace of mind with the ultimate virtual OS for malware and intrusion resistance. With zero attack surface, an unpublished API and encrypted data, Wyse ThinOS is virus and malware resistant and highly secure.

With simplified setup, configuration and management, the Wyse 5040 all-in-one thin client can be deployed right out-of-the box. Centrally configure, monitor and optimize all Wyse endpoints with Wyse Management Suite. This efficient hybrid cloud management solution scales from one to hundreds of thousands of devices to meet all levels of deployment
